**PAMLICO COUNTY, NORTH CAROLINA
SUBDIVISION ORDINANCE**

**ARTICLE 1
AUTHORITY**

**1.1
Title**

This ordinance shall be known and may be cited as the Pamlico County Subdivision Ordinance.

**1.2
Declaration of Purpose**

The procedures and standards for the development of real estate and for the surveying and platting thereof, adopted, and prescribed in this ordinance, are found by the Board of Commissioners to be necessary and appropriate in order:

- (1) To provide for economical and sufficient streets with adequate widths and with proper alignment and grade.
- (2) To provide space for safe and sanitary accommodations.
- (3) To promote the elimination of unsafe conditions arising from the overcrowding and concentration of population, improper planning, lack of proper light, air and space, unsafe design and arrangements, and existence of conditions which endanger life or property by fire and other causes.
- (4) To provide for suitable neighborhoods with adequate streets and utilities and appropriate building sites.
- (5) To save unnecessary expenditure of public funds by reserving space for public lands and buildings and by initial proper construction of streets and utilities.
- (6) To provide proper land records for the convenience of the public and for the better identification and permanent location of real estate boundaries.
- (7) To provide for the orderly growth and development of the county.
- (8) To provide for the coordination of streets and highways within subdivisions with existing or planned streets and highways and with other public facilities.

1.3

Authority

This ordinance is adopted under the authority and provisions of the General Statutes of North Carolina, Chapter 160D, Article 8.

1.4 Jurisdiction

The regulations contained herein shall govern each and every subdivision of land within Pamlico County, and within the jurisdiction of any incorporated municipality which has requested that Pamlico County enforce this ordinance in that municipality's jurisdiction, but only if Pamlico County has consented to the same, all by a mutual resolution or interlocal agreement.

1.5 Compliance

After the effective date of this ordinance, each subdivision of land must be approved by the Board of Commissioners, after review and recommendation of the Planning Board.

ARTICLE 2 DEFINITIONS

For the purpose of this ordinance, certain words or terms used herein shall be defined as follows:

- 2.1 Apartments.** Attached multi-family units in a row or in a group project.
- 2.2 Block.** A piece of land bounded on all sides by streets or other transportation routes such as railroad lines, or by physical barriers such as water bodies or public open space, and not traversed by a through street.
- 2.3 Board of Commissioners.** The duly constituted Board of County Commissioners of Pamlico County, North Carolina.
- 2.4 Buffer Strip.** An area fifty feet in width measured from the perimeter of a lot or lots within a subdivision when such lot or lots are located adjacent to an office, institutional, commercial, or industrial use area or railroad or highway right-of-way. No building or other structure shall be erected within the area of any such buffer strip, however, trees, shrubbery or other landscaping design may be used therein.
- 2.5 Building Setback Line.** A line parallel to the property line in front of which no

structure shall be erected. Setbacks shall be measured from the property line, or the road right-of-way, whichever is more restrictive.

2.6 Commercial Use. Any use of property, subdivision, or site for business or commerce, excluding industrial use.

2.7 County. Pamlico County, North Carolina.

2.8 Dedication. A gift by the owner or a right for the use of land for a specified purpose or purposes. Because a transfer of property rights is entailed, dedication must be made by written instrument, and is completed with an acceptance. For the purpose of this ordinance, "dedication" shall also include the right to the use of a private road, whether located within or without the boundaries of the subdivision, by the owners of lots within the subdivision.

2.9 Development. Any subdivision, whether or not the recording of a plat is required; any horizontal condominium; and any multiple dwelling unit residential building, including, but not limited to apartments, condominiums, hotels, motels, special planned developments, planned unit development, and group development projects. Development shall also mean any commercial or industrial building or structure. The term shall, when appropriate to the context, include the act of establishing or creating any of the foregoing or the result of such activity.

2.10 Easement. A grant by the property owners of a strip of land for a specified purpose and use by the public, a corporation, or person. Explicitly excluded from this definition is a street or road, whether public or private.

2.11 Group Development. A group of two or more principal structures built on a single lot, tract, or parcel of land and designed for occupancy by separate families, business firms, or other enterprises. Sometimes referred to as a Planned Unit Development or Cluster Development.

2.12 Industrial Use. Any use of property engaged in the production or manufacture of goods, products, or materials.

2.13 Lot. A portion of a subdivision, or any other parcel of land, intended as a unit of transfer of ownership or for development or both.

2.14 Lot, Corner. A lot located at the intersection of two or more streets. A lot abutting on a curved street or streets shall be considered a corner lot if straight lines drawn from the foremost points of the side lot lines to the foremost point of the lot meet at an interior angle

of less than one hundred thirty-five (135) degrees.

2.15 Lot, Double Frontage. A continuous, or “through,” lot which is accessible from both streets upon which it fronts.

2.16 Lot, Interior. A lot other than a corner lot with only one frontage on a street.

2.17 Lot, Single-Tier. A lot which backs upon a limited access highway, a railroad, a physical barrier, or another type of land use and to which access from the rear is usually prohibited.

2.18 Lot, Waterfront. A lot that is contiguous to a naturally occurring navigable body of water, or that is contiguous to the Intracoastal Waterway. Except as otherwise provided herein, this term shall not include lots that are contiguous to man-made bodies of water, navigable or otherwise. Where a lot is contiguous to minor, naturally occurring creeks or streams that transition from navigable to non-navigable water, the historical and customary use for navigation will be considered in determining whether such a lot is a “waterfront lot.”

2.19 Lot of Record. A lot which is part of a subdivision, a plat of which has been recorded in the office of the Register of Deeds of Pamlico County prior to the adoption of this ordinance, or a lot described by metes and bounds, the description of which has been so recorded prior to the adoption of this ordinance.

2.20 Official Maps or Plans. Any maps or plans officially adopted by the Pamlico County Board of Commissioners.

2.21 Open Space. An area (land and/or water) generally lacking in man-made structures and reserved for enjoyment in its unaltered state.

2.22 Planning Board. The duly constituted Pamlico County Planning Board.

2.23 Plat. A map or plan of a parcel of land which is to be, or has been, subdivided.

2.24 Private Driveway. A roadway serving not more than two (2) lots, building sites or other division of land, and not intended for public ingress or egress.

2.25 Private Street. An undedicated private right-of-way which affords access to abutting properties and requires a subdivision streets disclosure statement in accordance with G.S. 136-102.6.

2.26 Public Accessway. A piece of land transferred to public use for access to public areas. Public accessways may be dedicated by right-of-way, perpetual easement, or fee simple title transfer.

2.27 Public Sewage Disposal System. A system serving two (2) or more dwelling units and approved by the Pamlico County Health Department and the North Carolina Department of Natural Resources and Community Development.

2.28 Public Water Distribution System. A system serving two (2) or more dwelling units and approved by the Pamlico County Health Department and/or the North Carolina Department of Human Resources.

2.29 PUD or Planned Unit Development. A comprehensive development as established under Article 16 of this ordinance.

2.30 Recreation Area or Park. An area of land or combination of land and water resources that is developed for active and/or passive recreation pursuits with or without various man-made features that accommodate such activities.

2.31 Reservation. A reservation of land which does not involve any transfer of property rights.

2.32 Site Plan. A plan of a parcel of property showing proposed improvements, utilities, natural features, and other items as may be required to clearly indicate and define the intended development of the property. All site plans must be prepared by an engineer, architect or surveyor licensed to practice in the State of North Carolina.

2.33 Street or Road. A dedicated and accepted public right-of-way for vehicular traffic, or a private road as permitted by this ordinance, but explicitly excluding an easement. The following classifications shall apply:

- (a) **Local Residential Street.** Cul-de-sacs, loop streets less than 2,500 feet in length, or streets less than one mile in length that do not connect thoroughfares, or serve major traffic generators, and do not collect traffic from more than 100 dwelling units.
- (b) **Cul-de-sac Street.** A street having but one end open to traffic and the other end being permanently terminated and a vehicular turnaround provided.
- (c) **Access Street.** A local street or road that is parallel to a full or partial access-controlled facility and functions to provide access to adjacent land.
- (d) **Alley.** A strip of land, owned publicly or privately, set aside primarily for vehicular service access to the back or side of properties otherwise abutting on a street.

2.34 Subdivider, Developer or Owner. Any person, firm, or corporation who subdivides or develops any land deemed to be a subdivision as herein defined. A Subdivider, Developer or Owner shall be (i) the fee simple owner of land subdivided (or proposed to be subdivided), (ii) such fee simple owner's attorney-in-fact, agent or other authorized representative or (iii) a prospective purchaser from such fee simple owner under a written, executory contract for purchase of such land subdivided (or proposed to be subdivided) which gives such prospective purchaser the fee simple owner's consent to propose a subdivision hereunder. The Planning Board may, in its discretion, require such written or other confirmation deemed advisable to confirm that any person, firm or corporation presenting any plat for approval is a Subdivider or Owner as defined in this section 2.34.

2.35 Subdivision. All divisions of a tract or parcel of land into two or more lots, building sites, or other divisions for the purpose of sale or building development (whether immediate or future) and shall include all divisions of land involving the dedication of a street, whether public or private, or a change in existing streets; but the following shall not be included within this definition nor be subject to any regulations enacted pursuant to this ordinance:

(1) The combination or recombination of portions of previously platted lots where the total number of lots is not increased and the resultant lots are equal to or exceed the standards of the County as shown by the regulations prescribed by this ordinance;

(2) The division of land into parcels greater than ten (10) acres where no street right-of-way dedication is involved;

(3) The public acquisition by purchase of strips of land for the widening or opening of streets;

(4) The division of a tract in single ownership, the entire area of which is no greater than two (2) acres into not more than three (3) lots, if no street right-of-way dedication is involved and if the resultant lots are equal to or exceed the standards of the County as shown by its subdivision regulations.

(5) The conveyance of a lot or tract to a grantee for purposes other than immediate sale who would have been an heir of the grantor if the grantor had died intestate under the intestate succession laws of North Carolina immediately prior to the conveyance. The deed conveying any parcel under this exception shall contain a

recitation immediately after the description reciting that:

"The Grantor herein certifies that the Grantee herein, at the time of the execution of this deed, is currently entitled to inherit from the Grantor under the intestate succession laws of the State of North Carolina and, consequently, this conveyance is not governed by the subdivision regulations of Pamlico County."

(6) The conveyance of a lot or tract for the purpose of dividing lands among tenants in common, all of whom inherited the land by intestacy or by will from a common ancestor. The deed conveying any parcel under this exception shall contain a recitation immediately after the description reciting that:

"The Grantor and Grantee herein, by the execution, delivery, acceptance and recordation of this deed certifies that this conveyance evidences a division of land between the Grantor and Grantee as tenants in common of said land and that such tenancy in common was created through inheritance by the Grantor and Grantee from a common ancestor."

(7) Any project for which approval is required under County's Group Housing Project Ordinance.

2.36 Subdivision Administrator. The person designated by the Board of Commissioners to administer and enforce this ordinance, and where applicable his designee.

ARTICLE 3

WORD INTERPRETATION

For the purpose of this ordinance, certain words shall be interpreted as follows:

- (a) Words used in the present tense include the future tense.
- (b) Words used in the singular number include the plural and words used in the plural number include the singular, unless the natural construction of the wording indicates otherwise.
- (c) The word "person" includes a firm, association, corporation, trust, and company as well as an individual.
- (d) The word "used for" shall include the meaning "designed for."
- (e) The word "structure" shall include the word "building."
- (f) The word "lot" shall include the words "plot," "parcel," or "tract."
- (g) The word "shall" is always mandatory and not merely directory.

ARTICLE 4

LEGAL PROVISIONS

4.1

General Procedure for Plat Approval

After the effective date of this ordinance, no subdivision plat of land within the jurisdiction of Pamlico County shall be filed or recorded until it has been submitted to the Planning Board and approved by Board of Commissioners as set forth in this ordinance, and until this approval is entered in writing on the face of the plat by the Chairman of the Board of Commissioners and attested by the Clerk to the Board of Commissioners.

The Register of Deeds shall not file or record a plat of a subdivision of land located within the territorial jurisdiction of Pamlico County that has not been approved in accordance with the provisions of this ordinance, nor shall the Clerk of Superior Court order or direct the recording of a plat if the recording would be in conflict with this ordinance.

An Owner only needs to follow the procedure for final plat approval under this ordinance, which may be administratively approved by the Subdivision Administrator in his sole discretion and does not need approval of a preliminary plat or any approval by the Planning Board or Board of Commissioners for the division of a tract or parcel of land in single ownership if:

(a) all of the following criteria are met:

- (1) The tract or parcel to be divided is not exempted under ordinance.
- (2) No part of the tract or parcel to be divided has been divided under this subsection in the 10 years prior to division.
- (3) The entire area of the tract or parcel to be divided is greater than 5 acres.
- (4) After division, no more than three lots result from the division.
- (5) After division, all resultant lots comply with all of the following:
 - a. All lot dimension size requirements of all applicable land-use regulations, if any.
 - b. The use of the lots is in conformity with all applicable zoning requirements, if any.
 - c. A permanent means of ingress and egress is recorded for each lot.

OR

- (b) The division involves a one-time conveyance of a lot or tract less than or equal to one (1) acre in size to a grantee, if no street right-of-way dedication is involved and if the resultant lot is equal to or exceeds the standards of the county as shown by its subdivision regulations.

4.2

Statement By Owner

The Owner of the land shown on a subdivision plat submitted for recording, shall sign a statement on the plat stating whether or not any land shown thereon is within the subdivision regulation jurisdiction of Pamlico County.

In the event that a plat is presented to the Register of Deeds for recording depicting a division of land which is not within the subdivision regulation jurisdiction of this ordinance, the owner shall specify in writing on the face of the plat and by sworn affidavit the reasons for any exemption or exception from the provisions of this ordinance.

4.3

Effect of Plat Approval on Dedications

The approval of a plat does not constitute the acceptance by Pamlico County or the public of the dedication of any street or other ground, public utility line, or other public facility shown on the plat. Further, any action by County to accept any such dedication will not impose upon Pamlico County any responsibility or liability for the same.

4.4 **Penalties for Violation**

After the effective date of this ordinance, any person who subdivides land in violation of this ordinance, transfers or sells land by reference to a plat showing a subdivision that has not received final approval hereunder and that has been recorded in the Office of the Register of Deeds, or otherwise violates any provision of this ordinance, including the recording of any plat in the Office of the Pamlico County Register of Deeds showing a subdivision of land before the plat has received final approval hereunder, shall be guilty of a Class 1 misdemeanor. The description by metes and bounds in an instrument of transfer or other document used in the process of selling or transferring land shall be a violation of this ordinance, and does not exempt the transaction from this penalty, whether or not the description by metes and bounds in the instrument of transfer refers to any recorded or unrecorded map. Violators of this ordinance shall also be subject, upon conviction, to fine and/or imprisonment as provided by N.C.G.S. §14-4, as well as any other remedy available to County, including the denial of a building permit. Provided, however, it is not a violation of this ordinance to enter into a contract for the sale or lease of real property which complies with N.C.G.S. §160D-807.

4.5

In addition to the penalties set forth in Section 4.4 above, the violation of any provision of this ordinance shall subject the offender to a civil penalty in the amount of \$500.00 to be recovered by Pamlico County. Violators shall be issued a written notice which must be paid within ten (10) days of issuance of the notice. The violation of any provision of this ordinance shall be deemed to be committed on the date of recordation of an instrument of transfer or other document which transfers land in violation of this ordinance. Each day's violation shall be considered a separate offense.

4.6

Notwithstanding Subsections 4.4 and 4.5 above, this ordinance may be enforced by appropriate equitable remedies issuing from a court of competent jurisdiction.

4.7

Nothing in this section shall be construed to limit the use of remedies available to County and County may seek to enforce this ordinance by using any one, all, or a combination of remedies.

4.8

Severability

Should any section or provision of this ordinance be declared by a court of competent jurisdiction to be unconstitutional or invalid, such decision shall not affect the validity of the ordinance as a whole or any part thereof other than the part so declared to be unconstitutional or invalid.

ARTICLE 5

VARIANCES AND REASONABLE ACCOMMODATION

5.1

General Variance

Upon a request for final approval or upon a request for preliminary approval, the Planning Board may recommend to the Board of Commissioners that a variance be granted from these regulations, and the Board of Commissioner may grant such a variance, when, in each Board's opinion, undue hardship may result from strict compliance. In recommending or granting any variance, both Boards shall make the findings required below, taking into account the nature of the proposed subdivision, the existing use of land in the vicinity, the number of persons to reside or work in the proposed subdivision, and the probable effect of the proposed subdivision upon traffic conditions in the vicinity. No variance shall be granted unless both Boards find:

- (a) That there are special topographical or environmental circumstances or conditions affecting said property such that the strict application of the provisions of this ordinance would deprive the applicant of the reasonable use of his land; and
- (b) That the granting of the variance will not be detrimental to the purpose of this ordinance, public health, safety, and welfare or injurious to other property in the territory in which said property is situated.

5.2

In recommending or granting variances, the relevant Board may require such conditions as will secure, insofar as practicable, the objectives or requirements varied. Any variance thus recommended is required to be entered in writing in the minutes of the appropriate Board and the reasoning upon which departure was justified set forth.

5.3

In the event a variance is granted under the provisions of this Article, the fact that a variance has been granted shall be noted on the final plat together with the date of approval of the variance.

5.4

Reasonable Accommodation

The Planning Board may recommend to the Board of Commissioners that reasonable accommodations under the Federal Fair Housing Act for the circumstances set forth in this section are appropriate.

5.5

Application Requirements; Determination of Completeness

- (a) **Persons Authorized to File Applications.** An application for a reasonable accommodation may be filed only by the owner of the land affected by the reasonable accommodation; an agent, lessee, or contract purchaser specifically authorized by the owner to file such application; or any unit of government that is not the owner of the lot but proposes to acquire the lot by purchase, gift, or condemnation.
- (b) **Pre-Application Conference.** Before filing an application for a reasonable accommodation, the applicant may request a pre-application conference with the Planning Department.
- (c) **Application Filing.** An application for a reasonable accommodation shall be filed with the Planning Department. No filing fee is required for such application.

Once the application is complete, the Planning Department shall schedule the application for consideration at a hearing before the Planning Board, and shall transmit to the Planning Board all applications and other records pertaining to such reasonable accommodation prior to the hearing on the application.

5.6
Action on the Application

- (a) Upon receiving the application materials from the Planning Department, the Planning Board shall hold a public hearing on the proposed reasonable accommodation and shall decide the request upon a majority vote of the members within a reasonable time. Notice of the hearing shall be provided to the applicant and to the public no less than ten (10) days prior to the hearing date.
- (b) In considering the application, the Planning Board shall review the application materials, the approval criteria stated in this ordinance and all comments received at the hearing.
- (c) After conducting the hearing, the Planning Board may recommend to the Board of Commissioners that the Board of Commissioners: (1) deny the application; (2) conduct an additional hearing on the application; or (3) grant the requested reasonable accommodation.
- (d) The Planning Board's recommendation and the Board of Commissioners' decision shall be based upon competent, material, and substantial evidence. Both the recommendation from the Planning Board and the decision of the Board of Commissioners shall be reduced to writing and reflect each Board's determination of the facts and their application to the applicable standards. The written decision shall be signed by the chair of each Board. The decision is effective upon filing the written decision with the Clerk to the Board of Commissioners.
- (e) The decision shall be delivered by personal delivery, electronic mail, or by first-class mail to the applicant, property owner, and to any person who has submitted

a written request for a copy prior to the date the decision becomes effective. The person required to provide notice shall certify that proper notice has been made.

5.7 **Approval Criteria**

The Planning Board shall recommend and the Board of Commissioners shall grant a reasonable accommodation to any provision of this ordinance if each Board finds by a greater weight of the evidence that the proposed reasonable accommodation is determined to be both reasonable and necessary, in accordance with the following:

- (a) **“Reasonable”** An accommodation will be determined to be reasonable if it would not undermine the legitimate purposes and effects of existing planning regulations, and if it will not impose significant financial and administrative burdens upon the County and/or constitute a substantial or fundamental alteration of the County’s ordinance provisions; and
- (b) **“Necessary”** An accommodation will be determined to be necessary if it would provide direct or meaningful therapeutic amelioration of the effects of the particular disability or handicap, and would afford an equal opportunity to enjoy and use housing in residential areas in the County.

5.8 **Effect of Approval or Denial**

- (a) After the Board of Commissioners approves a reasonable accommodation, the applicant shall follow the normal procedures set forth in this and any other applicable ordinance for approval of any permits, certificates, and other approvals required in order to proceed with development or use of the property. All orders, decisions, determinations, and interpretations made by administrative officers under those procedures shall be consistent with the reasonable accommodation granted by the Board of Commissioners.
- (b) Planning Board and the Board of Commissioners shall refuse to hear a reasonable accommodation request that has been previously denied, unless it finds that there

have been substantial changes in the conditions or circumstances relating to the matter.

5.9
Lapse

In situations where a reasonable accommodation was a prerequisite to site plan and/or subdivision approval, failure of an applicant to apply for a building permit and commence construction or action with regard to the special exception approval within one (1) year of receiving approval of the reasonable accommodation shall automatically render the decision of the Board of Commissioners to grant the reasonable accommodation null and void.

ARTICLE 6
AMENDMENTS

6.1

The Board of Commissioners may from time-to-time amend the terms of this ordinance, but no amendment shall become effective unless it shall have been proposed by or shall have been submitted to the Planning Board for review and recommendation. The Planning Board shall have sixty (60) days or two regular meetings from the time the proposed amendment is submitted to it within which to submit its recommendation. If the Planning Board fails to submit a recommendation within the specified time, it shall be deemed to have recommended approval of the amendment.

No amendment shall be adopted by the Board of Commissioners until it has held a public hearing on the amendment. Notice of the hearing shall be published in a newspaper of general circulation in the Pamlico County area at least once a week for two (2) successive calendar weeks prior to the hearing. The initial notice shall appear not more than twenty-five (25) nor less than ten (10) days prior to the hearing date. In computing the ten (10) day period, the date of publication is not to be counted, but the date of the hearing is to be counted.

ARTICLE 7
ABROGATION

It is not intended that this ordinance repeal, abrogate, annul, impair, or interfere with any

existing easements, covenants, deed restrictions, agreements, rules, regulations, or permits previously adopted or issued pursuant to law. However, where this ordinance imposes greater restrictions, the provisions of this ordinance shall govern.

ARTICLE 8
ADMINISTRATOR

The Board of Commissioners shall designate a Subdivision Administrator who shall be charged with administering and enforcing this ordinance, and such other agents or officers as it deems appropriate.

ARTICLE 9
PROCEDURE FOR REVIEW AND APPROVAL
OF PRELIMINARY SUBDIVISION PLATS

9.1

For every subdivision within the territorial jurisdiction established by this ordinance, the owner shall submit a preliminary plat which shall be reviewed for approval by the Planning Board for compliance with the provisions of this ordinance.

9.2

Twelve (12) copies of the preliminary plat shall be submitted to the Subdivision Administrator of this ordinance at least thirty (30) days prior to the Planning Board meeting at which the owner desires the Board to review the preliminary plat. In the event the preliminary plat and the appropriate number of copies thereof are not submitted to the Subdivision Administrator at least thirty (30) days prior to the Planning Board meeting at which the Owner desires the Board to review the preliminary plat, the Planning Board may decline to consider such preliminary plat and defer consideration of same to the next regularly scheduled meeting of the Planning Board after which the preliminary plat and the appropriate number of copies are timely submitted. Preliminary plats shall meet the specifications as set forth in this ordinance. Preliminary plats shall depict or contain, or be accompanied by, the information indicated in the table attached as Appendix B to this ordinance. An “x” indicates that the information is required.

9.3

The Planning Board shall review a timely submitted preliminary plat at or before its next regularly scheduled meeting and no more than sixty (60) days after the Subdivision Administrator receives the preliminary plat and the comments or authorized signatures on the certificates from the appropriate agencies.

9.4

The Planning Board shall approve, conditionally approve with required conditions, or disapprove with specific reasons within forty-five (45) business days of its first consideration of the plat. If the Planning Board does not make a decision within forty five (45) business days after its first consideration of the plat, the plat shall be deemed approved without conditions.

9.5

The approval of the preliminary plat by the Planning Board shall be effective for a period of eighteen (18) months following the date of approval. In the event the final plat has not been submitted for approval prior to the expiration of said eighteen (18) month period, the preliminary plat shall be null and void unless extended by action of the Board of Commissioners upon the request of the Owner; provided, however, that such request for an extension will again be subject to the approval process set out in Sections 9.2 through 9.4 above.

9.6

If the Planning Board disapproves the preliminary plat, it shall retain one (1) copy of the plat for its minutes.

9.7

After having received the preliminary plat from the Subdivider but prior to consideration of the approval by the Planning Board as provided in this Article 9, the Subdivision Administrator may submit copies of the preliminary plat and any accompanying material to other officials and agencies concerned including, but not limited to:

- (a) Division of Environmental Health, Pamlico County Health Department; and
- (b) District Engineer, North Carolina Department of Transportation; and
- (c) Such other agencies and officials as the Planning Board may deem necessary.

ARTICLE 10
PROCEDURE FOR REVIEW AND APPROVAL
OF FINAL SUBDIVISION PLATS

10.1

Upon approval of the preliminary plat by the Planning Board, the Subdivider may proceed with the preparation of the final plat, and the installation of or arrangement for required improvements in accordance with the approved preliminary plat and the requirements of this ordinance.

Prior to approval of the final plat, the Subdivider shall have installed the improvements specified in this ordinance or guaranteed their installation as provided herein. No final plat will be accepted for review by the Planning Board unless it has been reviewed by the Subdivision Administrator and found to be in compliance with requirements of this ordinance. The final plat shall constitute only that portion of the preliminary plat which the Subdivider proposes to record and develop at that time; such portion shall conform to all requirements of this ordinance.

10.2

The Planning Board shall review the final plat at or before its next regularly scheduled meeting which follows no more than forty-five (45) days after the Subdivision Administrator receives the final plat and shall recommend approval as submitted, recommend approval with modifications to bring the plat into compliance with this ordinance, or recommend disapproval of the final plat with specific reasons no more than forty-five (45) working days of its first consideration of the plat.

During its review of the final plat, the Planning Board may appoint a Registered Land Surveyor or Registered Engineer to confirm the accuracy of the final plat. If errors or engineering problems with the design are found, the costs shall be charged to the Subdivider and the plat shall not be recommended for approval until such errors or problems have been corrected.

10.3

If the Planning Board recommends approval of the final plat, it shall transmit all copies of the plat and its recommendations to the Board of Commissioners.

10.4

If the final plat is disapproved by the Board of Commissioners, the reasons for such disapproval shall be stated in the minutes of the Board, specifying the provisions of this ordinance with which the final plat does not comply. If the final plat is disapproved, the Subdivider may make such changes as will bring the final plat into compliance and resubmit same for reconsideration by the Planning Board and the Board of Commissioners.

10.5

If the final plat is approved by the Board of Commissioners, the original tracing and one (1) print of the plat shall be retained by the Subdivider.

The Subdivider shall file the approved final plat with the Register of Deeds of Pamlico County within 30 days of the final approval of the Board of Commissioners, otherwise such approval shall be null and void.

10.6

The final plat shall be prepared by a Registered Land Surveyor or Engineer currently licensed and registered in the State of North Carolina by the North Carolina State Board of Registration for Professional Engineers and Land Surveyors. The final plat shall conform to the provisions for plats, subdivisions, and mapping requirements set forth in N.C.G.S. 47-30 and the Manual of Practice for Land Surveying in North Carolina.

Twelve (12) copies of the final plat shall be submitted. Material drawing medium for the original shall be in accordance with the Manual of Practice for Land Surveying in North Carolina, where applicable, and the requirements of the Pamlico County Register of Deeds.

The final plat shall be of a size suitable for recording with the Pamlico County Register of Deeds and shall be at a scale of not less than one (1) inch equals one hundred (100) feet, unless otherwise approved by the Subdivision Administrator. Maps may be placed on more than one sheet with appropriate match lines.

10.7

Submission of the final plat shall be accompanied by a filing fee per lot in the

subdivision, and a fee for inspection of the improvements in the subdivision which will reflect County's cost. A schedule of such fees shall be approved by the Board of Commissioners and posted in the office of the Subdivision Administrator.

10.8

The signed certificates indicated on Appendix A to this ordinance shall appear on all plats and shall be executed on the original and one (1) copy.

10.9

Final plats shall depict or contain the information indicated in the table attached as Appendix B to this ordinance. An “x” indicates that the information is required.

ARTICLE 11
GUARANTEES IN LIEU OF COMPLETED IMPROVEMENTS

11.1

No construction or installation of improvements shall commence in a proposed subdivision until the preliminary plat has been approved, and all plans and specifications have been approved by the appropriate Pamlico County, State of North Carolina and Federal authorities, and evidence thereof presented to the Planning Board.

11.2

No building, zoning or other permits shall be issued for erection of a structure on any lot not of record at the time of adoption of this ordinance until all the requirements of this ordinance have been met. The Subdivider, prior to commencing any work within the subdivision, shall make arrangements with the Subdivision Administrator to provide for adequate inspection. The Subdivision Administrator or his representatives shall inspect and approve all completed work prior to release of the sureties. At its option, the Board of Commissioners may require that inspections be performed by a qualified person designated by it and at the Developer's cost.

11.3

The Board of Commissioners may require installation of certain oversized utilities or the extension of utilities to adjacent property when it is in the interest of future development. If the Board of Commissioners requires the installation of improvements in excess of the standards

required in this ordinance, including all standards adopted by reference, the County shall pay the cost differential between the improvement required and the standards in this ordinance.

11.4

In lieu of requiring the completion, installation, and dedication of all improvements prior to final plat approval, the Board of Commissioners may enter into an agreement with the Subdivider whereby the Subdivider shall agree to complete all required improvements no later than eighteen (18) months from the date of recordation of the final plat. The agreement to complete all required improvements shall be in substantially the same form as set forth in Appendix "C". Once said agreement is signed by both parties and the security required herein is provided, the final plat may be approved by the Board of Commissioners, if all other requirements of this ordinance are met. To secure this agreement, the Subdivider shall provide, subject to the approval of the Board of Commissioners, either one, or a combination of, the following guarantees in an amount no less than 1.25 times the entire cost as provided herein. The Planning Board may approve a final plat without the performance agreement and security required herein, provided such approval is specifically contingent on the Subdivider's providing such agreement and security required herein to the Board of Commissioners prior to its consideration of the final plat.

At the time of submission of the guarantee required herein, the Subdivider shall furnish therewith a sealed statement by a licensed engineer, architect, surveyor, or licensed contractor setting forth the estimated cost of the improvements required under this ordinance together with the estimated time of completion. The estimate of cost shall take into consideration the current cost of the improvements as well as the effect of inflation on the cost, considering the estimated time of completion. The final estimate shall be multiplied by no less than 1.25 to determine the amount of the security required.

The Subdivider may elect which form of guarantee he shall submit to the County, but the guarantee must be of a type expressly authorized herein, and in any event such guarantee shall not expire prior to the completion of the improvements as described herein.

11.5

The Subdivider may obtain a performance bond(s) from a surety bonding company authorized to do business in North Carolina. The bonds shall be payable to Pamlico County and

shall be in an amount equal to 1.25 times the entire cost, as shown on the estimate required herein. The bond shall be approved by the Board of Commissioners. The bond shall be conditioned so that the required improvements may be constructed by Pamlico County without cost to the County in the event of default by the Subdivider. The duration of the bond(s) shall be until the completion of the improvements as described herein. Such bond shall also contain a provision to the effect that in the event of any conflict between the terms of such bond and this ordinance, the provisions of this ordinance shall control.

11.6

The Subdivider may deposit cash, an irrevocable letter of credit or other instrument readily convertible into cash at face value, either with the County or in escrow with a financial institution designated as an official depository of the County. The amount of deposit shall be equal to 1.25 times the cost, as estimated under the requirements of this ordinance and approved by the Board of Commissioners, for installing all required improvements within the time period required under this ordinance. Such instrument shall also contain a provision to the effect that in the event of any conflict between the terms of such instrument and this ordinance, the provisions of this ordinance shall control.

If cash or other instrument is deposited in escrow with a financial institution as provided above, then the Subdivider shall file with the County an agreement between the financial institution and himself guaranteeing the following:

- (a) That said escrow account shall be held in trust until released by the Board of Commissioners and may not be used or pledged by the Subdivider in any other manner during the term of the escrow; and
- (b) That in case of a failure on the part of the Subdivider to complete said improvements, the financial institution shall, upon notification by the Board of Commissioners, immediately either pay to the County the funds estimated to complete the improvement, up to the full balance of the escrow account, or deliver to the County any other instruments fully endorsed or otherwise made payable in full to the County.

11.7

Submission of the guarantee of improvements as required herein or submission of a final plat for approval hereunder shall constitute a warranty from the Subdivider to the County, said warranty expiring on the date which is one (1) year from the time when all improvements required under this ordinance have been installed or constructed and approved or accepted by the unit of government having jurisdiction thereof, that (i) all improvements required under this ordinance have been installed or constructed in a workmanlike manner, (ii) all improvements required under this ordinance have been installed or constructed in accordance with the provisions of this ordinance and all federal, state or local permits issued to the Subdivider and (iii) all improvements required under this ordinance are adequate for the intended uses thereof.

If it is anticipated that the improvements shall be done by contract at a later date, the Subdivider, having submitted satisfactory guarantees in lieu of completed improvements, in such case, this requirement of this ordinance may be satisfied by an agreement between the Subdivider and the County, in manner and form satisfactory to the Board of Commissioners, by which the Subdivider warrants all such improvements, and agrees to provide the warranties at such time as the improvements are completed.

11.8

Upon default, meaning failure on the part of the Subdivider to complete the required improvements in a timely manner as spelled out in the agreement as required by this ordinance, the surety, or the financial institution holding the escrow account shall, if requested by the County, pay all or any portion of the guarantee to Pamlico County up to the amount needed to complete the improvements, including all of the County's costs. Upon payment, the County, in its discretion, may expend such portion of said funds as it deems necessary to complete all or any portion of the required improvements, including professional fees and consultants. The County shall return to the Subdivider and/or issuer of the guarantee, as the case may be, any funds not spent in completing the improvements.

11.9

The Board of Commissioners may release all of the security, as appropriate, when the improvements are completed and written confirmation of such is received under seal from a licensed contractor, engineer or surveyor.

11.10

In the event a Subdivider elects to install, after the approval of a preliminary plat but before the approval of a final plat, all improvements required by this ordinance, such Subdivider, upon submittal of a final plat for approval, shall provide, subject to the approval of the Board of Commissioners, either one, or a combination of, the financial guarantees described herein in an amount no less than ten percent (10%) of the entire actual cost of such improvements installed. Such financial guarantee(s) shall be controlled by and shall conform to the provisions of this ordinance governing financial guarantees intended to serve as security for the installation of improvements after approval of a final plat.

ARTICLE 12
REQUIRED IMPROVEMENTS, DEDICATION, RESERVATION,
MINIMUM STANDARDS OF DESIGN

12.1

Each subdivision shall contain the improvements specified in this article, which shall be installed in accordance with the requirements of this ordinance and paid for by the Subdivider, unless other means of financing is specifically stated in this ordinance. Land shall be dedicated and reserved in each subdivision as specified in this article. Each subdivision shall adhere to the minimum standards of design established by this article.

12.2

Land which has been determined by the Board of Commissioners on the basis of engineering or other expert surveys to pose an ascertainable danger to life or property by reason of its unsuitability for the use proposed shall not be platted for that purpose, unless and until the Subdivider has taken the necessary measures to correct said conditions and to eliminate said dangers.

12.3

All subdivision proposals shall be consistent with the need to minimize flood damage and shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize flood damage, and shall meet all requirements of the Pamlico County Flood Damage Prevention Ordinance.

12.4

All construction activities will be prohibited in Conservation I areas except for shoreline stabilization activities and structures allowed under CAMA permitting requirements, marinas, piers, and other structures providing water access, clearing of vegetation, boat ramps, and paving for access which complies with the estuarine shoreline use standards as specified in 15 NCAC 7H.0209.

12.5

The lengths, widths, and shapes of blocks shall be determined with due regard to provision of adequate building sites suitable to the special needs of the type of use contemplated; needs for vehicular and pedestrian circulation; control and safety of street traffic; and limitations and opportunities of topography.

12.6

Block lengths shall not be less than 500 feet or more than 1500 feet unless otherwise waived by the Board of Commissioners after recommendation by the Planning Board.

12.7

Lot sizes, shapes and locations shall be made with due regard to topographic conditions, contemplated use, and the surrounding area. Land deemed by the Planning Board or Board of Commissioners to be uninhabitable for any reasons shall not be platted for residential occupancy, nor for such other uses as may increase danger to health, life, or property, or aggravate the flood hazard; but such land may be set aside for such uses as will not be endangered by periodic or occasional inundation or will not produce unsatisfactory living conditions.

12.8

Lot sizes shall be subject to the following minimum requirements:

- (1) Lots in areas served by community water and sewer systems shall have a minimum of 10,890 square feet of land per lot.

- (2) Lots served by either a community water or sewer system shall contain 14,520 square feet of land per lot.
- (3) Lots lacking both community water and sewer systems shall contain a minimum of 21,780 square feet of land per lot.
- (4) Lots in areas classified as “rural with service” by the most recent Pamlico County Land Use Plan shall contain a minimum of 21,780 square feet of land per Lot.
- (5) Wells shall be located at least 100 feet from any septic tank or filter field whether on the same lot or another adjoining lot, unless waived by the County Health Department.

12.9

For purposes of determining minimum lot size, the following shall not be included in calculating the size of a lot:

- (a) Any portion of a lot that is subject to or encumbered by an access easement, right of way, street, or road, whether public or private; or
- (b) Any portion of a lot containing public trust water.

Furthermore, if a lot is subject to an easement right of way, street, or road, whether public or private, at least one continuous portion must meet minimum lot sizes required herein.

12.10

The following minimum lot dimensions shall apply:

<u>Lot Size</u>	<u>Minimum Bldg. Set Back Line</u>	<u>Width at Actual Set Back Line</u>	<u>Side Yard</u>	<u>Rear Yard</u>
21,780 sq. ft.	30'	60'	10'	15'
14,520 sq. ft.	30'	60'	10'	15'
10,890 sq. ft.	25'	60'	8'	15'

12.11

Corner lots for residential use shall have an extra width sufficient to permit adequate setback from side streets.

12.12

All lots shall have at least 35 feet of road frontage. Further, no portion of an irregularly shaped lot shall ever have a width or length less than 35 feet at its narrowest point, unless the Planning Board recommends the waiver of this requirement and the Board of Commissioners waives this requirement, which waiver may be conditioned upon specific requirements or conditions. This section 12.12 shall not apply to divisions of land that may be administratively approved pursuant to the provisions of this ordinance.

12.13

Double frontage lots shall be avoided wherever possible.

12.14

When subdivisions are located within areas classified as rural with services by the then current Pamlico County Land Use Plan and lots are also waterfront lots, the minimum lot size shall be one acre or larger with a minimum of seventy-five (75) linear feet of water frontage, provided that the average water frontage of all lots within a subdivision shall be a minimum of one hundred (100) linear feet or more. Non-waterfront lots in subdivisions classified as rural with service shall be 21,780 square feet or larger in size. Subdivision and platted lots used for single-family residential purposes in existence prior to January 29, 1990, are exempt from the rural with services density requirement.

12.15

Where a subdivision is traversed by a water course, drainage way, creek or stream, a drainage easement sufficient to provide adequate drainage shall be provided. Easements centered on rear or side lot lines shall be provided for utilities where necessary and shall be at least six (6) feet wide.

12.16

In subdivisions with residential lots, a buffer strip at least 50 feet in depth in addition to the normal lot depth required shall be provided adjacent to all railroads and limited access highways. This strip shall be a part of the platted lots, but shall have the following restriction

lettered on the face of the plat: "This strip reserved for the planting of trees or shrubs by the owner and the building of structures hereon is prohibited."

12.17

All subdivisions should be consistent with the then current Pamlico County Land Use Plan. In the event of inconsistencies between the Land Use Plan and this ordinance, this ordinance shall control.

12.18

EXERCISE OF DISCRETION

Whenever any decision of the Subdivision Administrator, Planning Board or Board of Commissioners requires the exercise or application of judgment, those decisions shall be guided by the following standards and criteria:

- a) A proposed subdivision or the use thereof shall not be contrary to the public health, safety, and welfare, and shall not violate the spirit and intent of this ordinance;
- b) A proposed subdivision or the use thereof shall not be contrary to the Pamlico County Land Use Plan; and,
- c) A proposed subdivision or the use thereof shall not be contrary to the Declaration of Purpose stated in Article 1.2 herein.

ARTICLE 13 STREETS

13.1

Streets shall be laid out so as to intersect as nearly as possible at right angles. Street jogs with center line offsets of less than three hundred (300) feet shall be avoided. All measurements shall be from center line to center line of street rights-of-way.

13.2

All subdivision lots shall abut for a distance of at least 35 feet on public streets, semi-improved private streets, or non-improved private streets. This section 13.2 shall not apply

to divisions of land that may be administratively approved pursuant to the provisions of this ordinance; however, divisions that may be administratively approved must have deeded access to a public street, semi-improved private street, or non-improved private street over which the applicant has the right to travel.

13.3

All streets shall be built to the standards of this ordinance and all other applicable standards of the County and the North Carolina Department of Transportation. Public streets which are eligible for acceptance into the State Highway System shall be constructed to the standards necessary to be put on the State Highway System or the standards in this ordinance, whichever is more strict in regard to each particular item, and shall be put on such system. Public streets which are not eligible to be put on the State Highway System because there are too few lots or residences shall, nevertheless, be constructed in accordance with the standards in this ordinance or the standards necessary to be put on the State Highway System, whichever is stricter in regard to each particular item, so as to be eligible to be put on the system at a later date. A Subdivider constructing or installing streets intended for acceptance into the State Highway System shall maintain responsibility for the maintenance of such streets until such time as such streets are accepted into the State Highway System, provided that a Subdivider may transfer responsibility for the maintenance of such streets prior to such time as such streets are accepted into the State Highway System to a duly constituted and organized homeowners or property owners association if such Subdivider reserved the right to so transfer in restrictive covenants (or in a similar legal instrument) recorded in the Office of the Register of Deeds of Pamlico County, North Carolina prior to the conveyance of any lots in such subdivision.

13.4

Semi-Improved Private Streets

Subdivision streets may be designated private unpaved streets for the purpose of providing access from a public street or highway to not more than eight (8) residential lots

regardless of size, which lots shall not be further subdivided by said owner or subsequent owners until such time as the said street is paved and such further subdivision complies with the terms of this ordinance. It is the intent and purpose of this section that at no time shall a private unpaved street serve more than eight (8) residential lots regardless of the location of the additional lots. Semi-improved private streets constructed under the provisions of this article shall conform to the same specifications of the Division of Highways, North Carolina Department of Transportation for construction of subdivision roads, including but not limited to right-of-way width, except that paving shall not be required.

13.5

No semi-improved private or public streets shall be allowed under the provisions of this article if it is proposed that such private or public street shall connect to a previously approved unpaved private street.

13.6

All streets shown on the final plat shall be designated in accordance with N.C.G.S. 136-102.6 and those designated as public shall be conclusively presumed an offer of dedication to the public. Where streets are dedicated to the public but not accepted into the State system, before lots are sold, a statement explaining the status of the street shall be included with the final plat.

13.7

(a) Prior to entering any agreement or any conveyance with any prospective buyer, the Developer shall prepare and sign, and the buyer of the subject real estate shall receive and sign an acknowledgement of receipt of a separate instrument known as the Pamlico County Subdivision Streets Disclosure Statement which shall be made a part of the recorded deed of conveyance or recorded simultaneously with the recording of the deed of conveyance. Said statement shall be in substantially the following form, which shall be deemed sufficient for the purposes of this section:

PAMLICO COUNTY
Subdivision Street Disclosure Statement

Pursuant to N.C.G.S. 136-102.6(f), (Name of Developer), as the Developer and seller of Lot _____ in the subdivision known as (Name of Subdivision), Pamlico County, North Carolina, makes the following disclosures pertaining to the status and maintenance of (Name of Street):

- (1) (Name of Street) is designated a SUBDIVISION STREET.
- (2) After the initial installation and construction of (Name of Subdivision Street) by (Name of Developer), the responsibility of the maintenance of (Name of Subdivision Street) shall be upon the owners of the lots within the subdivision. In the event of failure of the lot owners to maintain said street there is no responsibility on the part of either the State of North Carolina or Pamlico County as to such maintenance. The street will not be constructed to minimum standards, sufficient to allow their inclusion on the State Highway System for maintenance.
- (3) (Name of Developer) will not construct said road to meet the North Carolina Department of Transportation Subdivision Road Minimum Construction Standards, and as such, (Name of Subdivision Street) will not meet the standards sufficient to allow its inclusion in the State Highway System for maintenance.

Receipt of this disclosure is by the Developer and buyer acknowledged this day of ___ day of _____, 20__.

(b) The Developer shall include in the Disclosure Statement an explanation of the consequences and responsibility as to maintenance of the subdivision street, and shall fully and accurately disclose the party and parties upon whom responsibility for construction and maintenance of such street or streets shall rest.

(c) The Disclosure Statement shall further disclose that the street or streets will not be constructed to minimum standards, sufficient to allow their inclusion on the State Highway System for maintenance. However, there must be a 50 foot right-of-way on all subdivision roads.

(d) The Disclosure Statement shall contain a duplicate original which shall be given to the buyer. Written acknowledgement or receipt of the disclosure statement by the buyer shall be conclusive proof of the delivery thereof.

(e) As an alternative to providing the aforesaid disclosure separately and individually to each purchaser or prospective purchaser of a lot in a subdivision to be served by private streets, the Developer thereof may include language substantially similar to that required by this Section on the final plat of the subdivision or within any restrictive covenants recorded for the subdivision before the conveyance of any lots therein.

13.8

All subdivision streets shall meet the following requirements:

- (a) Cul-de-sacs shall be provided at the end of all public and semi-improved roads if dead ending unless the road is looped. All cul-de-sacs must have a minimum radius of fifty feet, and the outside edge of the pavement or stabilized road must be a minimum of fifteen feet from the right-of-way line.
- (b) All subdivision roads or street within Pamlico county, whether public or private, and which the terminus thereof does not abut a state maintained street or highway, shall be connected by a connecting street to a state maintained road or highway, which connecting road shall conform to the specifications of the Division of Highways, North Carolina Department of Transportation for subdivision Streets; provided, however, that pavement of such connecting road or street shall not be required in the event that such road or street connects with subdivision streets or roads designated as private, as herein provided, and disclosure that said road shall not be paved is made in accordance with provisions of this ordinance.

13.9

Where it is necessary to provide for street access to an adjoining property, proposed streets shall be extended by dedication to the boundary of such property and a temporary turnaround provided.

13.10

The Subdivider of a nonresidential subdivision shall provide streets in accordance with the latest standard of the N.C. Department of Transportation, Division of Highways' Subdivision Roads Minimum Construction Standards; and the standards in this ordinance, whichever are more strict in regard to each particular item.

13.11

The design of all public streets and roads within the jurisdiction of this ordinance shall be in accordance with the accepted policies of the latest standard of the N.C. Department of Transportation, Division of Highways' Subdivision Roads Minimum Construction Standards.

13.12

Right-of-way widths shall not be less than those adopted by the North Carolina Department of Transportation and shall apply except in those cases where right-of-way requirements have been specifically set out in the thoroughfare plan.

13.13

Proposed streets which are obviously in alignment with existing streets shall be given the same name. In assigning new names, duplication of existing names shall be avoided and in no case shall the proposed name be phonetically similar to existing names in the County irrespective of the use of a suffix such as street, road, drive, place, court, etc. Street names shall be made in accordance with the Pamlico County Road Naming and Addressing Ordinance.

13.14

The Subdivider shall be required to provide and erect street name signs at all intersections within the subdivision. The signs must be of the same type currently erected unless otherwise approved by the Board of Commissioners and must be erected in compliance with State and County standards, whichever are more stringent. All street names shall be indicated on the final plat.

13.15

An approved driveway permit is required for connection to any existing state system

road. This permit is required prior to any construction on the street or road. The application is available at the office of the nearest district engineer of the Division of Highways.

13.16

Offsets for Utility Poles and Utility Ground Terminals Poles for overhead utilities and utility ground terminals shall be set no greater than one foot inside the road right-of-way.

ARTICLE 14

UTILITIES

14.1

All lots in subdivision not connected to municipal or county water and/or sanitary sewer systems must have a suitable source of water supply and sanitary sewage disposal which complies with the regulations of the State of North Carolina or Pamlico County regulations, as applicable:

- a) No surface water shall be channeled or directed into a sanitary sewer.
- b) Where feasible, Subdivider shall connect to an existing storm drainage system.
- c) Where an existing storm drainage system cannot feasibly be extended to the subdivision, a surface drainage system shall be designed to protect the proposed development from water damage.
- d) The proposed surface drainage design system shall meet all of the applicable rules and regulation of the North Carolina soil conservation authorities.
- e) Streambanks and channels downstream from any land disturbing activity shall be protected from increased degradation or accelerated bank erosion caused by increased velocity of runoff from the land disturbing activity in accordance with the North Carolina Sedimentation Pollution Control Act, G.S. 143-34.12, Chapter 113A, Article 4 and the North Carolina Administrative Code, Title 15, Chapter 4.
- f) All water valves, water meters and manholes shall be located outside the paved roadway.
- g) All utilities located within the 100-year flood plain will be designed and located to comply with requirements of the National Flood Insurance Program and the County's Flood Damage Prevention Ordinance.

14.2

If applicable to the lot, it is a requirement to give disclosure to prospective owners by the seller of the lot that a special sewage system will be required to allow usage of this property. The disclosure shall be signed by the owner, the prospective buyer of the lot, and recorded with the deed in the Office of the Register of Deeds of Pamlico County.

ARTICLE 15 **MONUMENTS**

Unless otherwise specified by this ordinance, the Manual of Practice for Land Surveying as adopted by the N.C. State Board of Registration for Professional Engineers and Land Surveyors, under the provisions of Title 21 of the North Carolina Administrative Code, Chapter 56 (21 NCAC 56), or as may be subsequently amended, shall apply when conducting surveys and placement of monuments, control corners, markers, and property corner ties; to determine the location, design, and material of monuments, markers, control corners, and property corner ties; and to determine other standards and procedures governing the practice of land surveying for subdivisions.

ARTICLE 16 **GROUP, CLUSTER, PLANNED UNIT DEVELOPMENT**

16.1 **Purpose**

The purpose of this Article 16 is to encourage comprehensive planning for sizeable tracts of land under single ownership or control, so as to promote the construction and use of the appropriate commercial, retail, institutional, industrial and recreational areas. To this end, the standards and requirements of this ordinance may be modified by the Planning Board in the case of a plan and program for a group, cluster, or Plan Unit Development (“PUD”), which in the judgment in the Planning Board and Board of Commissioners, provides adequate public spaces and improvements for circulation, recreation, and service needs of the tract of land when fully developed and populated, and also provides such covenants, or other legal instruments, as will assure conformity to an achievement of such a development plan.

16.2
Permitted Uses

The following uses shall be permitted:

- A. Single family dwellings.
- B. Multi-family dwellings.
- C. Accessory buildings or uses for residential dwellings.
- D. Office and professional facilities.
- E. Retail commercial facilities.
- F. Recreational uses, including golf courses, parks, open spaces, walkways, marinas, and all other recreational uses, as well as services associated therewith.
- G. Utility structures and facilities.
- H. Hotels, inns, and other commercial establishments of transient or temporary lodging.

Any use proposed in a PUD that would otherwise be regulated by the County's Group Housing Ordinance shall instead be regulated by this Subdivision Ordinance.

16.3
Minimum Tract Size

There shall be no minimum tract size for development under this Article 16.

16.4
Density of Development

There shall be no more than one dwelling unit or separate unit of ownership, on average, for each acre of the PUD property utilized.

16.5
Lot Size

The average lot size for single family lots within the PUD with frontage on a naturally occurring water shall be three-quarters (3/4) of an acre; otherwise, the average size of all single-family lots within the PUD shall be one-half (1/2) acre.

16.6

Wastewater Treatment

All wastewater treatment of effluent generated within the PUD must be through a North Carolina DENR approved treatment and disposal system operated by either a unit of government or an approved licensed public utility with a franchise granted by the North Carolina Utilities Commission. In no event shall septic systems be allowed for treatment of wastewater effluent.

16.7
Water Supply

All water supplied to property within the PUD must be through an approved system operated by either a unit of government or an approved licensed public utility with a franchise granted by the North Carolina Utilities Commission.

16.8
Setbacks

The following minimum setbacks shall apply:

<u>Minimum Building Setback Line</u>	<u>Side Yard Setback Line</u>	<u>Rear Yard Setback Line</u>
25 feet	8 feet	15 feet

The minimum required setback established hereunder may be waived in the event that the public health, safety and welfare will not be negatively impacted by such waiver. Further, additional requirements may be imposed as a condition upon waiver of these setback requirements.

In addition to these minimum setbacks, those setbacks under the Pamlico County Land Use Plan established for districts entitled “Rural with Services” and “Conservation I” shall also apply.

16.9
Streets

Public streets must meet the requirements imposed by Article 13 of this ordinance.

Streets other than public streets shall have no minimum right of way or paving widths,

and shall not be required to meet the provisions of Article 13 of this ordinance; provided, however, all base, material and paving must meet the then current secondary road standards of the State of North Carolina as if it were a public street.

Further, in the event that any street in a PUD shall not be constructed to minimum standards sufficient to allow its inclusion in the state highway system for maintenance, a street disclosure statement, in a format substantially similar to that contained in Article 13.7 above, shall be required.

16.10 **Plat Submission**

The owner of any property seeking to have such a property developed under this Article 16 shall submit a master site and development plan for all property designated (or requested to be designated) as a PUD at least thirty (30) days prior to the Planning Board meeting at which the owner desires the Board to review the master site and development plan. Twelve copies of such site development plan shall be submitted to the County Subdivision Administrator. The site development plan must show, at a minimum, the following items:

- A. All proposed public or private street rights-of-way and easements;
- B. The proposed location of all single-family residences and developments;
- C. The proposed location of all multi-family developments;
- D. The proposed location of all recreational areas;
- E. The proposed location of all office and professional areas;
- F. The proposed location of all commercial areas;
- G. The proposed location of all utility areas;
- H. The proposed density of development for each site designated single-family residential, for each site designated multi-family residential, for each site designated for office and professional utilization, and for each site designated for commercial utilization. Furthermore, the development plan shall include the gross acreage for the project, and each use therein, and the gross residential density (including recreational and open spaces); and
- I. Any other information requested by the Planning Board or Board of Commissioners.

The Board of Commissioners, following review and recommendation by the Planning

Board, may designate property as a PUD if the Board of Commissioners determine that the proposed development plan is in the best interest of Pamlico County because the plan meets the requirements of this Article 16, and represents a comprehensive and coordinated approach to land planning and use on the property so designated. Once the master plan is approved by the Board of Commissioners, the applicant may proceed under Sections 16.11 and 16.12 below. A PUD may only be designated as such upon request of the owner of the property.

16.11 **Change In Plans**

A. Change in Plans Prior to Final Plat Approval. The owner or developer of each tract designated as a PUD may submit plats for subdivision approval that are inconsistent with particular site designations as shown on the master plan prior to plat approval under Section 16.12.

B. Change in Plans After Final Plat Approval. The owner of each tract designated as a PUD shall be allowed to submit plats for subdivision approval that amend prior final recorded plats and approval for such plats may be performed by the Subdivision Administrator so long as the amended plat does not increase the number of lots contained on the plat by more than ten percent (10%), does not increase the density by more than ten percent (10%), and otherwise meets the requirements of this ordinance. If the Subdivision Administrator makes a decision to approve or deny such plats, the Subdivision Administrator shall provide notice of such decision pursuant to G.S. 160D-403(b). Nothing in this ordinance shall require the Subdivision Administrator to approve any proposed amended or subsequent plats, and the Subdivision Administrator may submit the proposed amended or subsequent plat for preliminary and final plat approval in accordance with Articles 9 and 10 of this ordinance in his or her sole discretion if the Subdivision Administrator requires clarification from the Planning Board or Board of Commissioners on the intent or interpretation of this ordinance.

If any such changes described above are deemed material by the Subdivision Administrator, the applicant may be required to provide to the County an updated master development plan for the entire property, which updated plan must conform with all limitations contained within this ordinance, and approval of the updated plan shall then be a condition precedent to recordation of

the plat.

16.12
Plat Approval

Within twelve (12) months (unless said time is extended by the Planning Board), one or more plats of some or all of the phases of a proposed PUD shall be submitted in accordance with Article 9 of this ordinance and said plat shall be reviewed in accordance with said section, and upon approval, Article 10 of this ordinance shall be applicable.

16.13
Waiver of General Subdivision Requirements

Except for Articles 2, 9, 10, and 11 above, and except as otherwise provided herein, property approved as a PUD shall be exempt from other provisions of this ordinance.

16.14
Permits

Before any building permit is issued within a PUD, a storm water management plan must be submitted to and be approved by the State of North Carolina in accordance with its Coastal Storm Water Rules and Regulations.

16.15
Off Street Parking Space Requirements

There shall be a minimum of two parking spaces (10ft. by 20ft. each) for every multi-family residential, retail, commercial, or institutional unit. Furthermore, additional spaces may be required to protect the public health safety and welfare, and such additional requirements will be determined by actual use. The number of parking spaces required for marina slips shall be as required by the Pamlico County Land Use Plan. Parking space requirements shall also be as required by federal, state, and local laws and regulations.

ARTICLE 17
APPEALS

Any decision of the Subdivision Administrator under this ordinance may be appealed by an aggrieved party within thirty (30) days of such decision by filing a written request for an appeal with the County Clerk. Any such appeal of a decision of the Subdivision Administrator shall be considered and ruled upon by the Planning Board within sixty days of the filing thereof.

Any decision of the Planning Board under this ordinance may be appealed by an aggrieved party within thirty (30) days of such decision by filing a written request for an appeal with the County Clerk. Any such appeal of a decision of the Planning Board shall be considered and ruled upon by the County Commissioners within sixty days of the filing thereof.

Any decision of the Board of Commissioners under this ordinance may be appealed by an aggrieved party within thirty (30) days of such decision by filing a petition with the Superior Court of Pamlico County for a review, which shall be in the nature of certiorari.

ARTICLE 18

DEVELOPMENT AGREEMENTS

Pamlico County may enter into development agreements with developers or property owners subject to the provisions of this ordinance. In entering into such agreements, Pamlico County may not exercise any authority or make any commitment not authorized by general or local act and may not impose any tax or fee not authorized by otherwise applicable law. A development agreement shall not exempt the property owner or developer from compliance with the State Building Code or State or local housing codes that are not part of Pamlico County's development regulations. Development authorized by a development agreement shall comply with all applicable laws, including all ordinances, resolutions, regulations, permits, policies, and laws affecting the development of property, including laws governing permitted uses of the property, density, intensity, design, and improvements.

A. Any development agreement must be approved by the Board of County Commissioners.

B. Before entering into a development agreement, the Board of County Commissioners shall conduct a legislative hearing on the proposed agreement. The notice provisions of G.S. 160D-602 applicable to zoning map amendments shall be followed for this

hearing. The notice for the hearing must specify the location of the property subject to the development agreement, the development uses proposed on the property, and must specify a place where a copy of the proposed development agreement can be obtained.

C. Content of the Agreement.

1. A development agreement shall, at a minimum, include all of the following:

- (a) A description of the property subject to the agreement and the names of its legal and equitable property owners.
- (b) The duration of the agreement. However, the parties are not precluded from entering into subsequent development agreements that may extend the original duration period.
- (c) The development uses permitted on the property, including population densities, and building types, intensities, placement on the site, and design.
- (d) A description of public facilities that will serve the development, including who provides the facilities, the date any new public facilities, if needed, will be constructed, and a schedule to assure public facilities are available concurrent with the impacts of the development. In the event that the development agreement provides that the County shall provide certain public facilities, the development agreement shall provide that the delivery date of such public facilities will be tied to successful performance by the developer in implementing the proposed development, such as meeting defined completion percentages or other performance standards.
- (e) A description, where appropriate, of any reservation or dedication of land for public purposes and any provisions agreed to by the developer that exceed existing laws related to protection of environmentally sensitive property.
- (f) A description, where appropriate, of any conditions, terms, restrictions, or other requirements for the protection of public health, safety, or welfare.
- (g) A description, where appropriate, of any provisions for the preservation and restoration of historic structures.

2. The development agreement may also provide that the entire development or any phase of it be commenced or completed within a specified period of time. If required by

ordinance or in the agreement, the development agreement shall provide a development schedule, including commencement dates and interim completion dates at no greater than five-year intervals; provided, however, the failure to meet a commencement or completion date does not, in and of itself, constitute a material breach of the development agreement pursuant to G.S. 160D-1008 but must be judged based upon the totality of the circumstances. The developer may request a modification in the dates as set forth in the agreement.

3. If more than one local government is made party to an agreement, the agreement must specify which local government is responsible for the overall administration of the development agreement. A local or regional utility authority may also be made a party to the development agreement.

4. The development agreement also may cover any other matter, including defined performance standards, not inconsistent with this ordinance. The development agreement may include mutually acceptable terms regarding provision of public facilities and other amenities and the allocation of financial responsibility for their provision, provided any impact mitigation measures offered by the developer beyond those that could be required by the County shall be expressly enumerated within the agreement, and provided the agreement may not include a tax or impact fee not otherwise authorized by law.

5. Consideration of a proposed major modification of the agreement shall follow the same procedures as required for initial approval of a development agreement. What changes constitute a major modification may be determined by ordinance adopted pursuant to G.S. 160D-1003 or as provided for in the development agreement.

6. Any performance guarantees under the development agreement shall comply with G.S. 160D-804.1.

D. Vesting.

1. Unless the development agreement specifically provides for the application of subsequently enacted laws, the laws applicable to development of the property subject to a development agreement are those in force at the time of execution of the agreement.

2. Except for grounds specified in G.S. 160D-108(c) or G.S. 160D-108.1(f), Pamlico County may not apply subsequently adopted ordinances or development policies to a development that is subject to a development agreement.
3. In the event State or federal law is changed after a development agreement has been entered into and the change prevents or precludes compliance with one or more provisions of the development agreement, the County may modify the affected provisions, upon a finding that the change in State or federal law has a fundamental effect on the development agreement.
4. This section does not abrogate any vested rights otherwise preserved by law.

E. Breach and cure.

1. The Subdivision Administrator shall review development under the agreement annually or more frequently in the sole discretion of the Subdivision Administrator at which time the developer shall demonstrate good-faith compliance with the terms of the development agreement.
2. If Pamlico County finds and determines that the developer has committed a material breach of the agreement, the County shall notify the developer in writing setting forth with reasonable particularity the nature of the breach and the evidence supporting the finding and determination and providing the developer a reasonable time in which to cure the material breach.
3. If the developer fails to cure the material breach within the time given, then Pamlico County unilaterally may terminate or modify the development agreement, provided the notice of termination or modification may be appealed in the manner provided by Article 17.
4. A development agreement shall be enforceable by any party to the agreement notwithstanding any changes in the development regulations made subsequent to the effective date of the development agreement. Any party to the agreement may file an action for injunctive relief to enforce the terms of a development agreement.

F. Change of jurisdiction.

1. Except as otherwise provided by this Article, any development agreement entered into by a local government before the effective date of a change of jurisdiction shall be valid for the duration of the agreement or eight years from the effective date of the change in jurisdiction, whichever is earlier. The parties to the development agreement and the local government assuming jurisdiction have the same rights and obligations with respect to each other regarding matters addressed in the development agreement as if the property had remained in the previous jurisdiction.
2. A local government assuming jurisdiction may modify or suspend the provisions of the development agreement if the local government determines that the failure of the local government to do so would place the residents of the territory subject to the development agreement or the residents of the local government, or both, in a condition dangerous to their health or safety, or both.

G. Recordation.

The developer shall record the agreement with the Pamlico County Register of Deeds within 14 days after the County and developer execute an approved development agreement. No development approvals may be issued until the development agreement has been recorded. The burdens of the development agreement are binding upon, and the benefits of the agreement shall inure to, all successors in interest to the parties to the agreement.

H. Applicability of procedures to approve debt.

In the event that any of the obligations of the County in the development agreement constitute debt, the County shall comply, at the time of the obligation to incur the debt and before the debt becomes enforceable against the County, with any applicable constitutional and statutory procedures for the approval of this debt.

ARTICLE 19
EFFECTIVE DATE

This ordinance is hereby adopted by the Pamlico County Board of Commissioners to be

effective the 5th day of June, 2023.

PAMLICO COUNTY

EDWARD RIGGS, JR., Chairman

ATTEST:

CHANTELLE ALLISON, Clerk

APPENDIX A

a) Certificate of Ownership and Dedication

I (We) hereby certify that I (we are) am the owner(s) of the property shown and described hereon, and that I (we) hereby adopt this plan of subdivision with my (our) free consent, establish the minimum building lines, and dedicate all streets alleys, walks, parks, and private use as noted. I (we) also certify that the land shown on this plat falls within the subdivision jurisdiction of Pamlico County.

Date

Owner

Owner

b) (1) Certificate of Approval of Street Design - Public Streets

This is to certify that the street design specifications shown on this subdivision map have been examined and found to be in accordance with the minimum right-of-way and construction standards established by the Secondary Roads Council of the North Carolina Department of Transportation for acceptance on the State Highway System.

This ____ day of _____, 20____

District Engineer
N.C. Department of Transportation

AND

The subdivider or developer agrees to maintain responsibility for the maintenance of all streets depicted on this plat until such time as such streets are accepted into the State Highway System, provided that the subdivider may transfer responsibility for the maintenance of such streets prior to such time as such streets are accepted into the State Highway System to a duly constituted and organized homeowners or property owners association if the subdivider has reserved the right to so transfer in restrictive covenants (or in a similar legal instrument) recorded in the Office of the Register of Deeds of Pamlico County, North Carolina prior to the conveyance of any lots in such subdivision.

b) (2) Certificate of Approval of Street Design – Private Streets

This is to certify that the street design specifications shown on this subdivision

map have been examined by me are in accordance with the minimum requirements of Article 13 of the Pamlico County Subdivision Ordinance.

This ____ day of _____, 20__

Project Engineer/Surveyor

AND

After the initial installation and construction by the developer or subdivider of streets depicted on this plat, the responsibility for the maintenance of said streets shall be upon the owners of the lots within the subdivision. In the event of failure of the lot owners to maintain said streets there is no responsibility on the part of either the State of North Carolina or Pamlico County as to such maintenance. The streets will not be constructed to minimum standards sufficient to allow their inclusion on the State Highway System for maintenance, and in any event will not be maintained by any unit of government.

c) Certificate of Surveyor or Engineer

I, _____, certify that this plat was drawn under my supervision from (an actual survey made under my supervision) (deed description recorded in Book _____, Page _____ etc.) (other) ; that the boundaries not surveyed are shown as broken lines plotted from information found in Book _____, Page _____ that this plat was prepared in accordance with G.S. 47-30 as amended.

Witness my original signature, registration number and seal this ____ day of _____, A.D., 20_____

SEAL OR
STAMP

d) Certificate of Approval by the Planning Board

The Pamlico County Planning Board hereby approves the final plat for the _____ Subdivision.

Date

CHAIRMAN, PLANNING BOARD

e) Certificate of Approval by the Board of County Commissioners

The Pamlico County Board of Commissioners hereby approves the final plat for the
_____ Subdivision.

Date

CHAIRMAN, PAMLICO COUNTY
BOARD OF COMMISSIONERS

f) Certificate of Compliance with Area of Environmental Concern Standards

I hereby certify that this subdivision conforms to the standards of the North Carolina Coastal Management Act of 1974 and is not located within any Area of Environmental Concern.

-OR-

I hereby certify that this subdivision conforms to the standards of the North Carolina Coastal Management Act of 1974 and a portion(s) or all of the subdivision located within any Area of Environmental Concern is duly noted at the appropriate location on this plat.

LOCAL PERMIT OFFICER

g) Notice to Prospective Purchasers (Environmental Matters)

The Army Corps of Engineer, Coastal Area Management Act and Division of Water Quality areas of regulatory jurisdiction depicted on this map, if any, are for information purposes only. The exact location of these areas of regulatory jurisdiction are subject to future precise delineation by various state and federal agencies and may change over time due to changes in the physical characteristic of the land depicted on this plat, or due to future statutory and regulatory amendments. Prior to purchasing any property shown on this plat, individuals are advised to independently verify that any particular lot is suitable for the planned or intended use, as subdivision approval by Pamlico County does not constitute any warranty (express or implied) that the land depicted on this plat is suitable for any particular use.

h) Notice to Prospective Purchasers (Wastewater Treatment Matters, plat must reflect *one* of

the following notices)

(i) SERVICE BY GOVERNMENTAL ENTITY

Lots depicted on this plat are permitted for sewer service by [insert name of governmental sewer provider], permit/authorization number _____. Prior to purchasing any lot depicted on this plat, Purchasers are advised to verify the continuing validity of the aforesaid permit or authorization, as well as the costs to connect to such system as the continuing and indefinite availability of sewer service is not guaranteed by Pamlico County.

(ii) SERVICE BY PRIVATE PACKAGE/TREATMENT PLANT

Lots depicted on this plat are permitted for sewer service by a private package or treatment plant which will be owned and operated by the developer or another non-public person or entity. The private sewer plant has been permitted by the State of North Carolina, permit number _____, and after its construction will be operated as a utility subject to regulatory oversight by the State of North Carolina. Prior to purchasing any lot depicted on this plat, Purchasers are advised to verify the continuing validity of the aforesaid permit and the status of the construction of the private sewer plant by the developer as the construction and proper operation of the private sewer plant or the indefinite availability of sewer service is not guaranteed by Pamlico County.

(iii) SERVICE BY SEPTIC TANKS

Lots depicted on this plat are permitted for septic service by individual septic tank permits issued by the Pamlico County Health Department. Prior to purchasing any lot depicted on this plat, Purchasers are advised to verify the continuing validity of the septic permit for the lot to be purchased as septic permits expire five (5) years after issuance with no guarantee that new or future septic tank regulations will permit the installation of the system originally permitted.

-OR-

Lots depicted on this plat are intended to be served by individual septic tank permits to be issued by the Pamlico County Health Department; however, no such permits have been issued to the developer. Prior to purchasing any lot depicted on this plat, Purchasers are advised to verify whether a septic tank permit can be obtained for the lot to be purchased.

APPENDIX "C"

**PERFORMANCE AGREEMENT
TO COMPLETE REQUIRED IMPROVEMENTS**

NORTH CAROLINA
PAMLICO COUNTY

PERFORMANCE AGREEMENT

THIS AGREEMENT, made and entered into this ___ day of _____, 20___,
by _____ and _____ between _____, a(n)
_____ (hereinafter "Developer"); and PAMLICO COUNTY, a North
Carolina body politic and corporate (hereinafter "County");

WITNESSETH:

THAT WHEREAS, Developer is the owner of that certain tract or parcel of land lying
and being situate in Township ___, Pamlico County, North Carolina, more commonly referred to
as _____ (hereinafter "Subdivision"), as is shown in the plat recorded in
Map Book ___, Page ___ in the office of the Register of Deeds of Pamlico County, North Carolina;
and,

WHEREAS, Developer has undertaken to subdivide said land in accordance with the
subdivision regulations as officially adopted by the County and to install streets and perform
other requirements as are set forth in said regulations; and,

WHEREAS, in order to secure the compliance of Developer with the subdivision,
regulations, Developer has given the County a [describe type of collateral] of even date herewith,
to serve in the place of and in substitution of, a bond for the performance of said work to be
performed by Developer in the Subdivision.

NOW THEREFORE, for and in consideration of the sum of TEN DOLLARS and the
covenants and agreements set forth herein, Developer does hereby obligate itself to the
installation of streets, utilities and other improvements as required by the County under its
subdivision regulations in the subdivision as recorded in Map Book ___, Page ___; and if in the
event the Developer shall complete said subdivision improvements according to the
specifications as outlined by the county's subdivision regulations within eighteen (18) months of

the date of this Agreement, then and in that event, this obligation shall become null and void, and upon completion and expiration of the same, the Pamlico County Board of Commissioners shall take all necessary actions to cancel this bond of record; otherwise this bond shall be and remain in full force and effect. In the event of the failure of Developer to complete said improvements in the time set forth above or any extensions thereof, in accordance with the subdivision regulations of County and the terms of this Agreement, the County is hereby authorized to proceed upon the collateral given this day by Developer to secure the performance of this Agreement and to apply the proceeds thereof to the completion of said Subdivision in accordance with subdivision regulations of County, with any balance being applied first to any and all costs incurred by the County due to the default, and the remainder, if any, returned to Developer. Further, in the event of the failure of the Developer to comply with the terms of this Agreement, which shall constitute a default hereof, the County may employ an attorney to enforce the County's rights and remedies under the terms of any collateral securing this Agreement. County shall have the right to collect reasonable attorney's fees, plus all other reasonable expenses incurred by the County in exercising any of the County's rights and remedies upon default. The County's failure to exercise any such right or remedy shall not be a waiver or release of such rights or remedies or the right to exercise any of them at another time.

If there is a breach of the warranty stated in Section 11.7 of the County's Subdivision Ordinance, County may pursue all legal and equitable remedies against Developer or any contractor or agent of Developer, as the County deems appropriate, to enforce the warranty and recover any damages associated with the breach of said warranty.

In the event County grants Developer any extension(s) of time in which to complete said subdivision improvements, this Agreement shall likewise be extended by the amount of such approved extension, without the necessity of a formal written amendment to this Agreement.

ALL TERMS, CONDITIONS AND PROVISIONS OF COUNTY'S SUBDIVISION ORDINANCE ARE INCORPORATED HEREIN BY REFERENCE AS IF FULLY SET FORTH HEREIN SEPARATELY, AND DEVELOPER AGREES TO BE BOUND BY SAME.

IN TESTIMONY WHEREOF, the Developer and County have caused this instrument to be duly executed, the day and year first above written.
