

10/08/2016 12:00 a.m.

As of approximately 10:00 p.m., October 8, 2016, Pamlico County began experiencing wind speeds at tropical storm force or greater. Winds are expected to remain at this strength throughout the night hours.

There are currently wide spread power outages with water covering the roads in many eastern parts of the County. There are also reports of downed power lines. Residents are encouraged to stay off of the roads.

Officials are in constant contact with State and Federal Officials along with local utilities providers. For questions and updates, you can call the emergency management office at 252-745-4131.
