As the county needs continue to grow, the capabilities to provide consumer generated needs such as reliable, high speed service/speed is limited due to length of the dsl line from their box. Speeds so slow that cannot stream movies.

Wish we had more choices for internet service. Satellite is the only option. Very expensive and have low data caps.

We have no need for home phone. We do not desire to "bundle" home phone with internet -- we just need internet. Reside in exhausted area with Centurylink. Neighbors want internet but none can be added. Someone must discuss this.

We have bundled services (TV and Internet). I don't have a breakdown on the cost of the Internet.
