C. Questions/Clarifications

1. Pier Height – This pier replacement project is being funded by FEMA. FEMA requires that no horizontal members of the pier be below the flood elevation which has recently changed to 9’ in this area. Therefore, we have a pier finished height of 11’.
2. This pier is a replacement pier and as such the CAMA permit requires that it be placed in the same location with no changes in size, length or platform area.
