

Request for Proposals – Hazardous Tree Abatement

Addendum 2

October 19, 2018

Clarification of Submittal Instructions:

Due to the short time frame between the initial Request for Proposal (RFP) announcement and the due date of RFP, Pamlico County will not eliminate Proposals that are not in compliance with the number of copies submitted (at least 1 copy is required) and the number of pages of supplemental information. Brief Summaries and Other Information can be included as subsections of Company Expertise/Experience or can be included as their own tab.
